01 · THE PROBLEM المشكلة

Shopping for tech is confusing.

01

Too many tabs

To compare one laptop with another, shoppers open shop after shop and page after page.

02

Easy to forget

After an hour of looking, it is hard to remember which headset or camera you liked best.

03

Long checkouts

Many shops ask for an account and a long form before you can even place an order.

WHY THE NAME سر الاسم

EyadStore

The shop carries the name of the student who built it, Eyad, the way many real shops in Egypt carry their owner's name over the door.

The message: a shop you can trust, because someone puts his own name on it.

Thank you.
