MANY·HOUSES

Every city. One search.

Search homes from Alexandria to Aswan, save the ones you love, and read the contract before you meet anyone.

Cairo gets the portals. Everyone else gets Facebook.

01

Scattered

Homes are spread across brokers, Facebook groups and five or more portals. Buyers check them one by one.

02

Cairo-first

About 157k of Dubizzle's 200k+ property ads are in Cairo [37]. Property Finder's featured projects start at EGP 12.4M [32].

03

Hard to trust

Prices hidden "in private", duplicate and fake listings. The government launched a platform in 2025 to remove them [24].

A country on the move.

On 6 March 2024 the pound fell from about **EGP 31** to about **EGP 50** per dollar in one day [16]. Families keep their savings in homes, and they search for them online.

Built for everyone the big portals skip.

BUYER FIRST · BROKERS AS PARTNERS

PRIMARY · BUYER

Mona, 27

Teacher in Aswan, engaged, looking for a first flat

WHY NOW

936,739 marriage contracts in 2024. Most new couples need a home [3].

PAIN TODAY

Facebook posts hide the price ("السعر في الخاص"), and brokers show her flats one visit at a time.

MANYHOUSES GIVES

Price, rooms and area on every card. A favorites shortlist to show her family.

WHERE TO REACH HER

Facebook groups for flats in her city, and engagement and wedding pages.

LATER · BUYER ABROAD

Karim, 34

Engineer in Riyadh, buying a home back in Egypt

WHY NOW

Egyptians abroad sent a record US$36.5 billion home in FY2024/25 [20].

PAIN TODAY

He cannot visit flats from abroad, and he has to trust a stranger's photos and a broker's word.

MANYHOUSES GIVES

Photos, a map and the key numbers in one place, and a contract draft to read before he flies home.

WHERE TO REACH HIM

Facebook groups of Egyptians in the Gulf, Instagram, family back home.

PARTNER · SUPPLY

Hassan, 45

Local broker in Luxor with 20 flats to rent or sell

WHY NOW

Big portals focus on Cairo. Dubizzle has about 157k Cairo property ads out of 200k+ [37].

PAIN TODAY

His listings get buried in Facebook groups, and big portals charge agent subscriptions [35].

MANYHOUSES GIVES

His city on equal footing with Cairo, and the first partner spots (see Business model).

WHERE TO REACH HIM

A visit to his office with a QR flyer and the live demo on a phone.

We start with Mona and Hassan. Mona is the buyer we market to first, and Hassan brings the real listings she is looking for. Karim comes later, once the listings are real.
