HEALTHY RECIPES · ASWAN 2026

foodZILLA

The beast of healthy recipes.

Pick a nutrition group, watch the recipe video, check the calories, and put the meal in your cart, all on one fiery page.

01 · WHY Healthy food has a boring name. الأكل الصحي سمعته مملة

THE PROBLEM المشكلة

“Healthy” sounds dull and hard

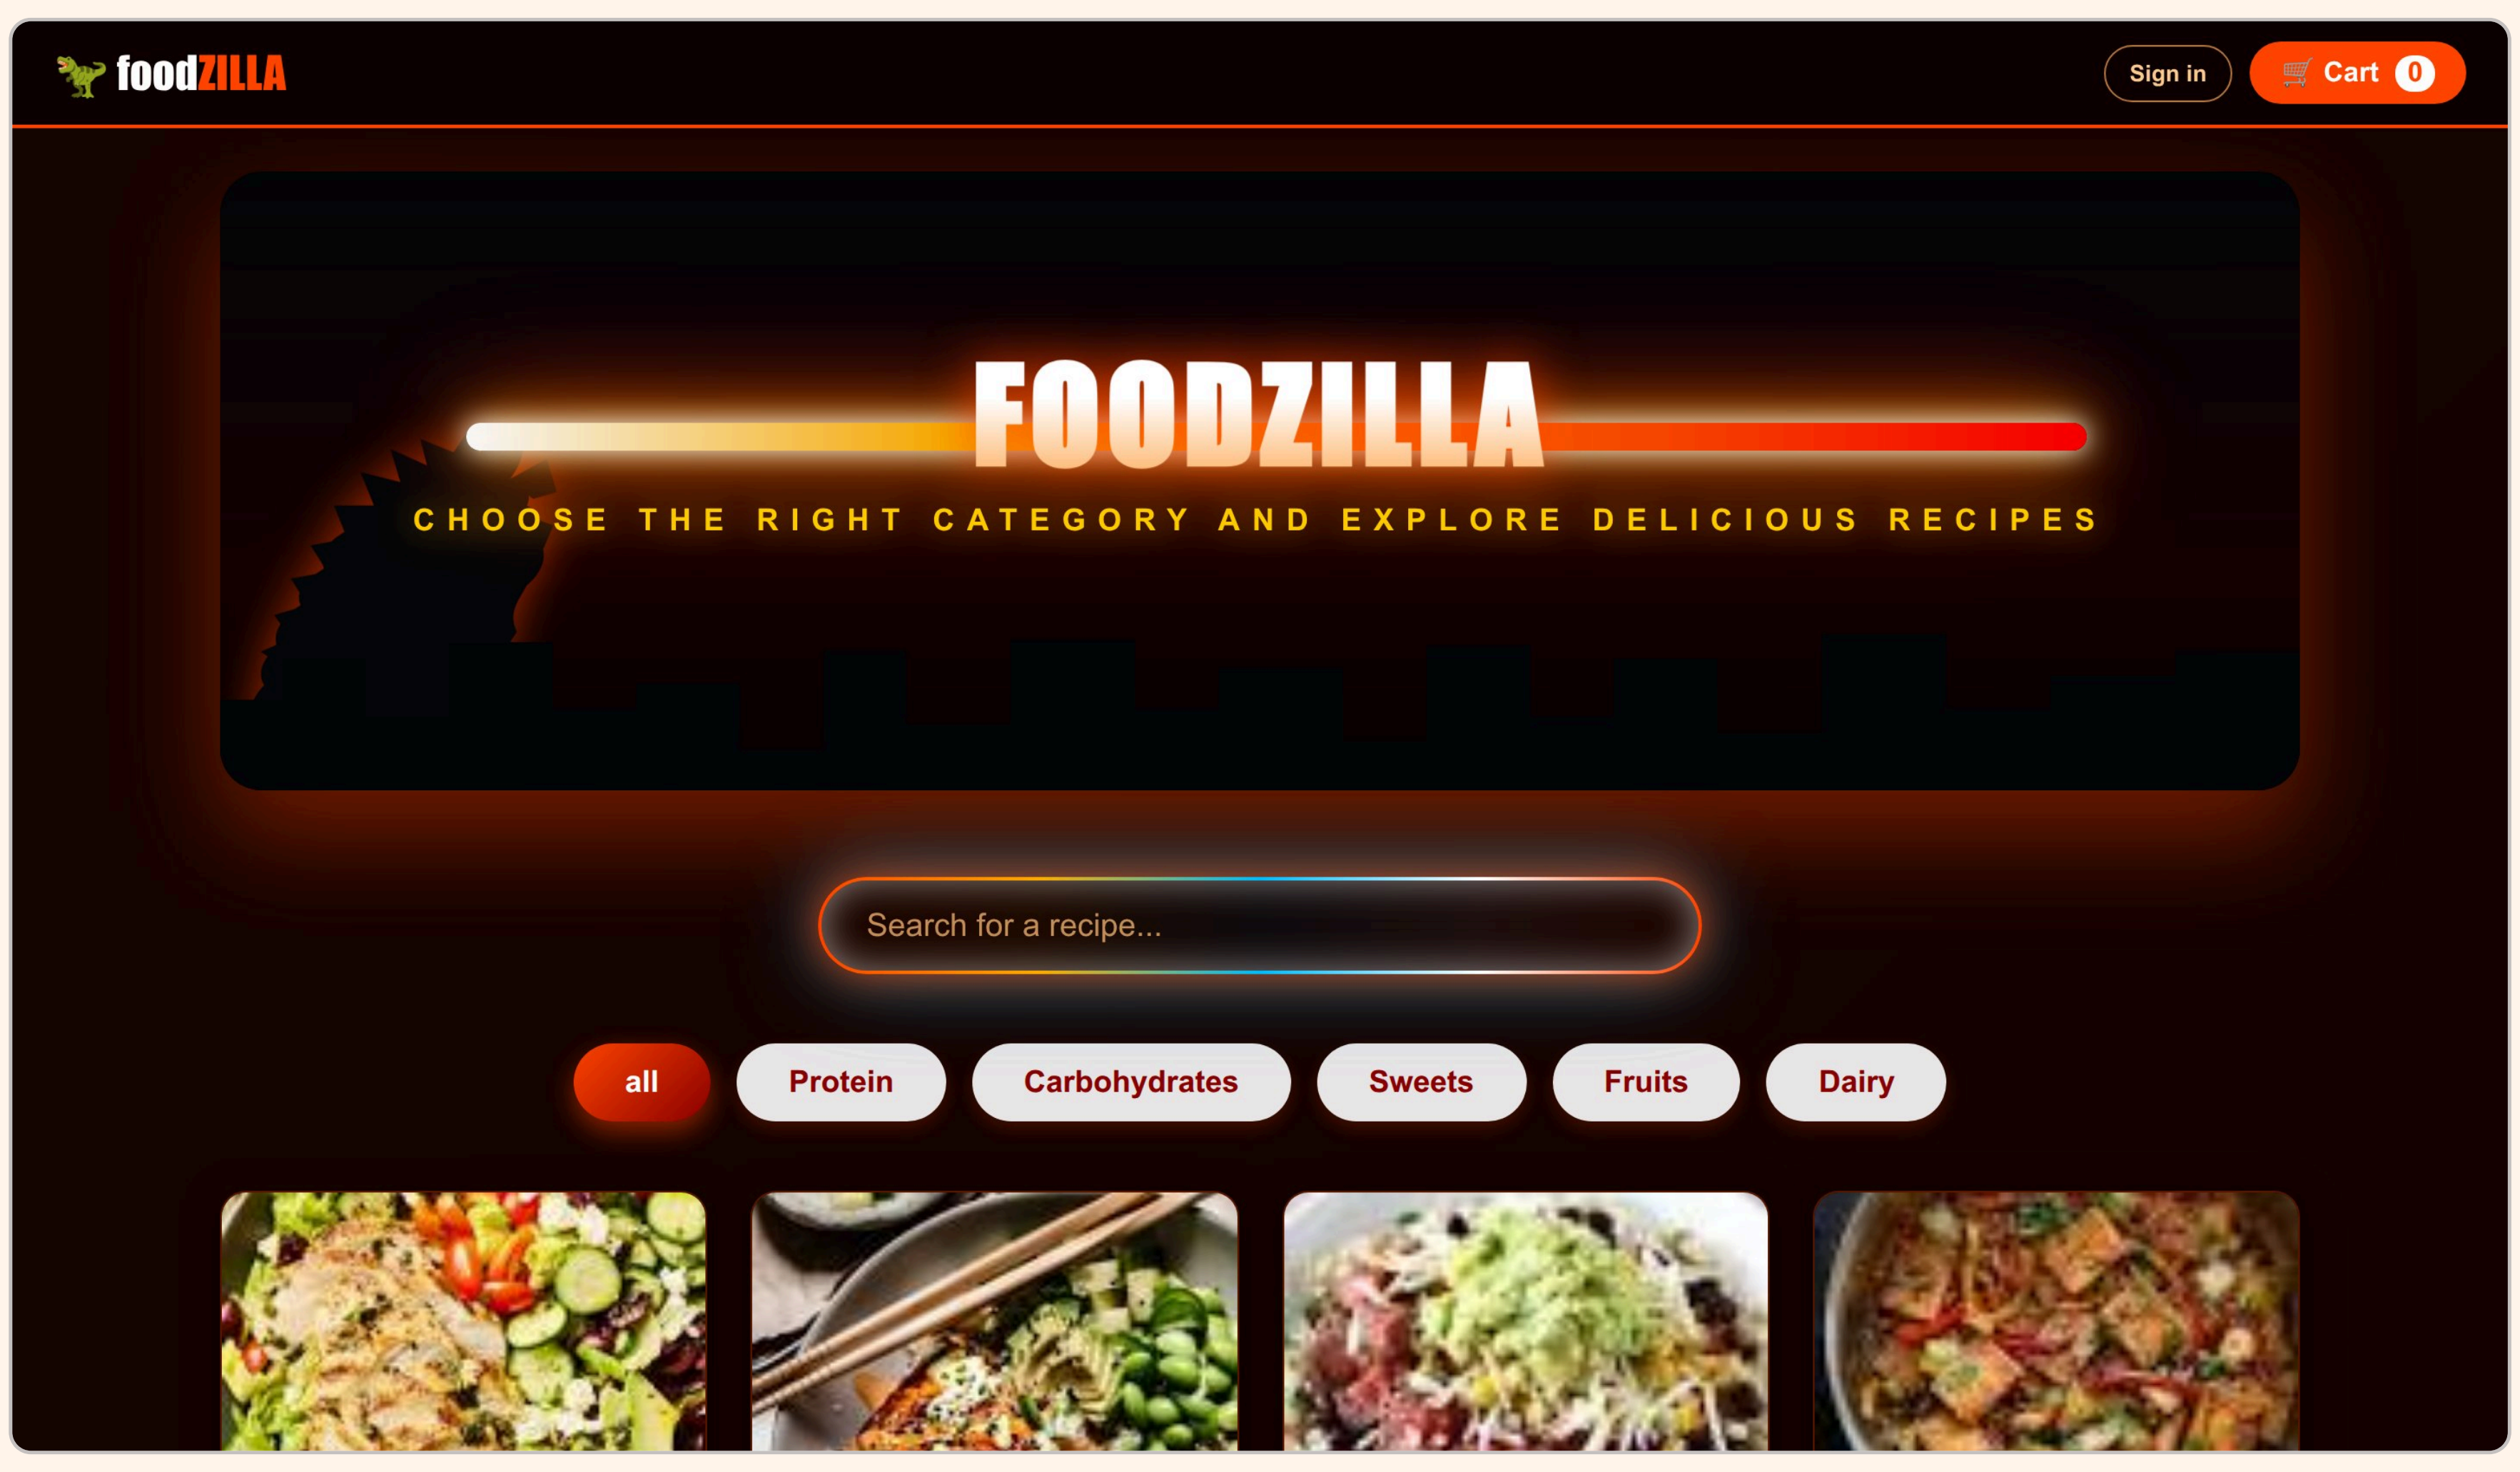
Many teens and young adults picture plain boiled vegetables when they hear “healthy”, so they pick fast food. Good recipes are scattered: the steps on one site, the video on another, the calories nowhere.

OUR SOLUTION الحل

Recipes with monster energy

foodZILLA puts 31 recipes in five nutrition groups. Each one has a YouTube video, its ingredients, steps, calories and price, wrapped in a Godzilla look with fire and lightning. No time to cook? Add it to the cart.

02 · SEE IT From craving to cart. من الشهية إلى السلة



The home page: the Godzilla header with its fire beam, the search box, the five nutrition buttons and the recipe cards with calories and price.

- **Five nutrition groups**

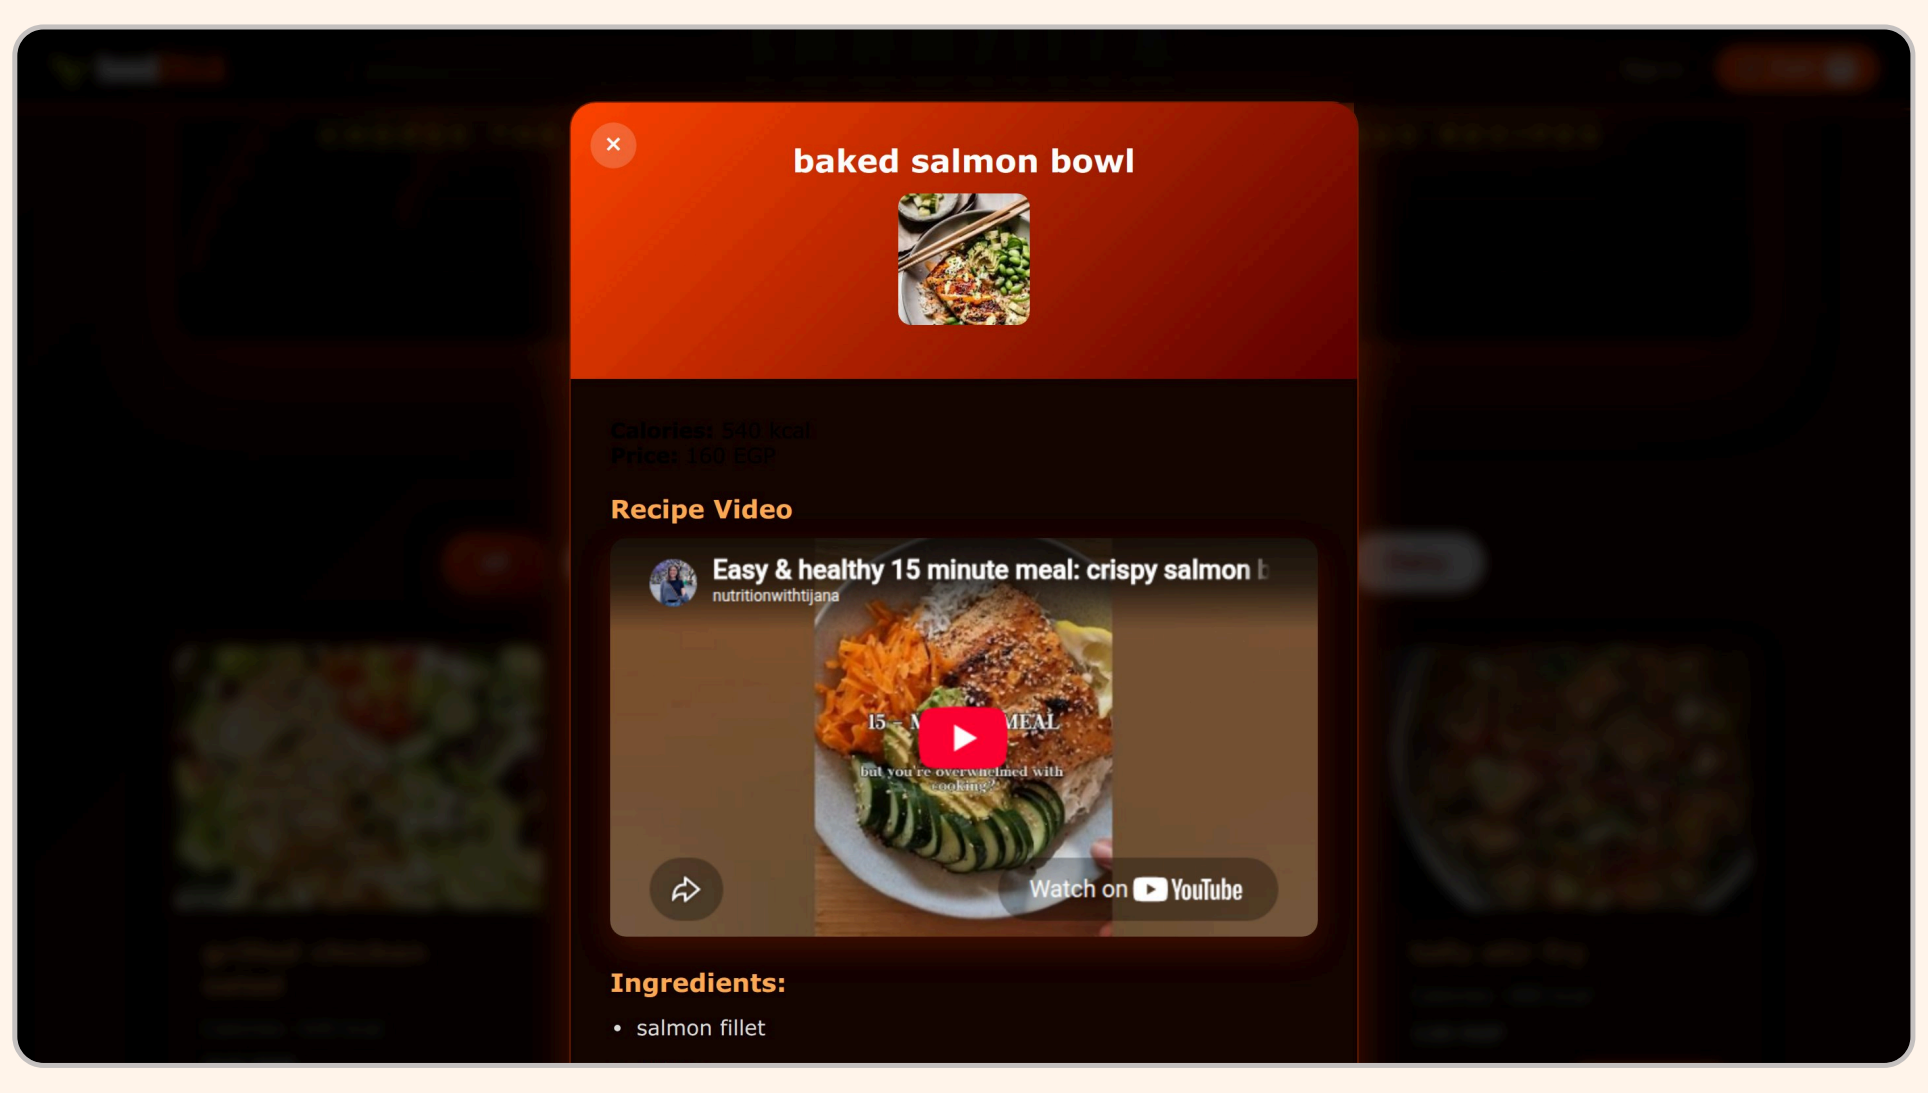
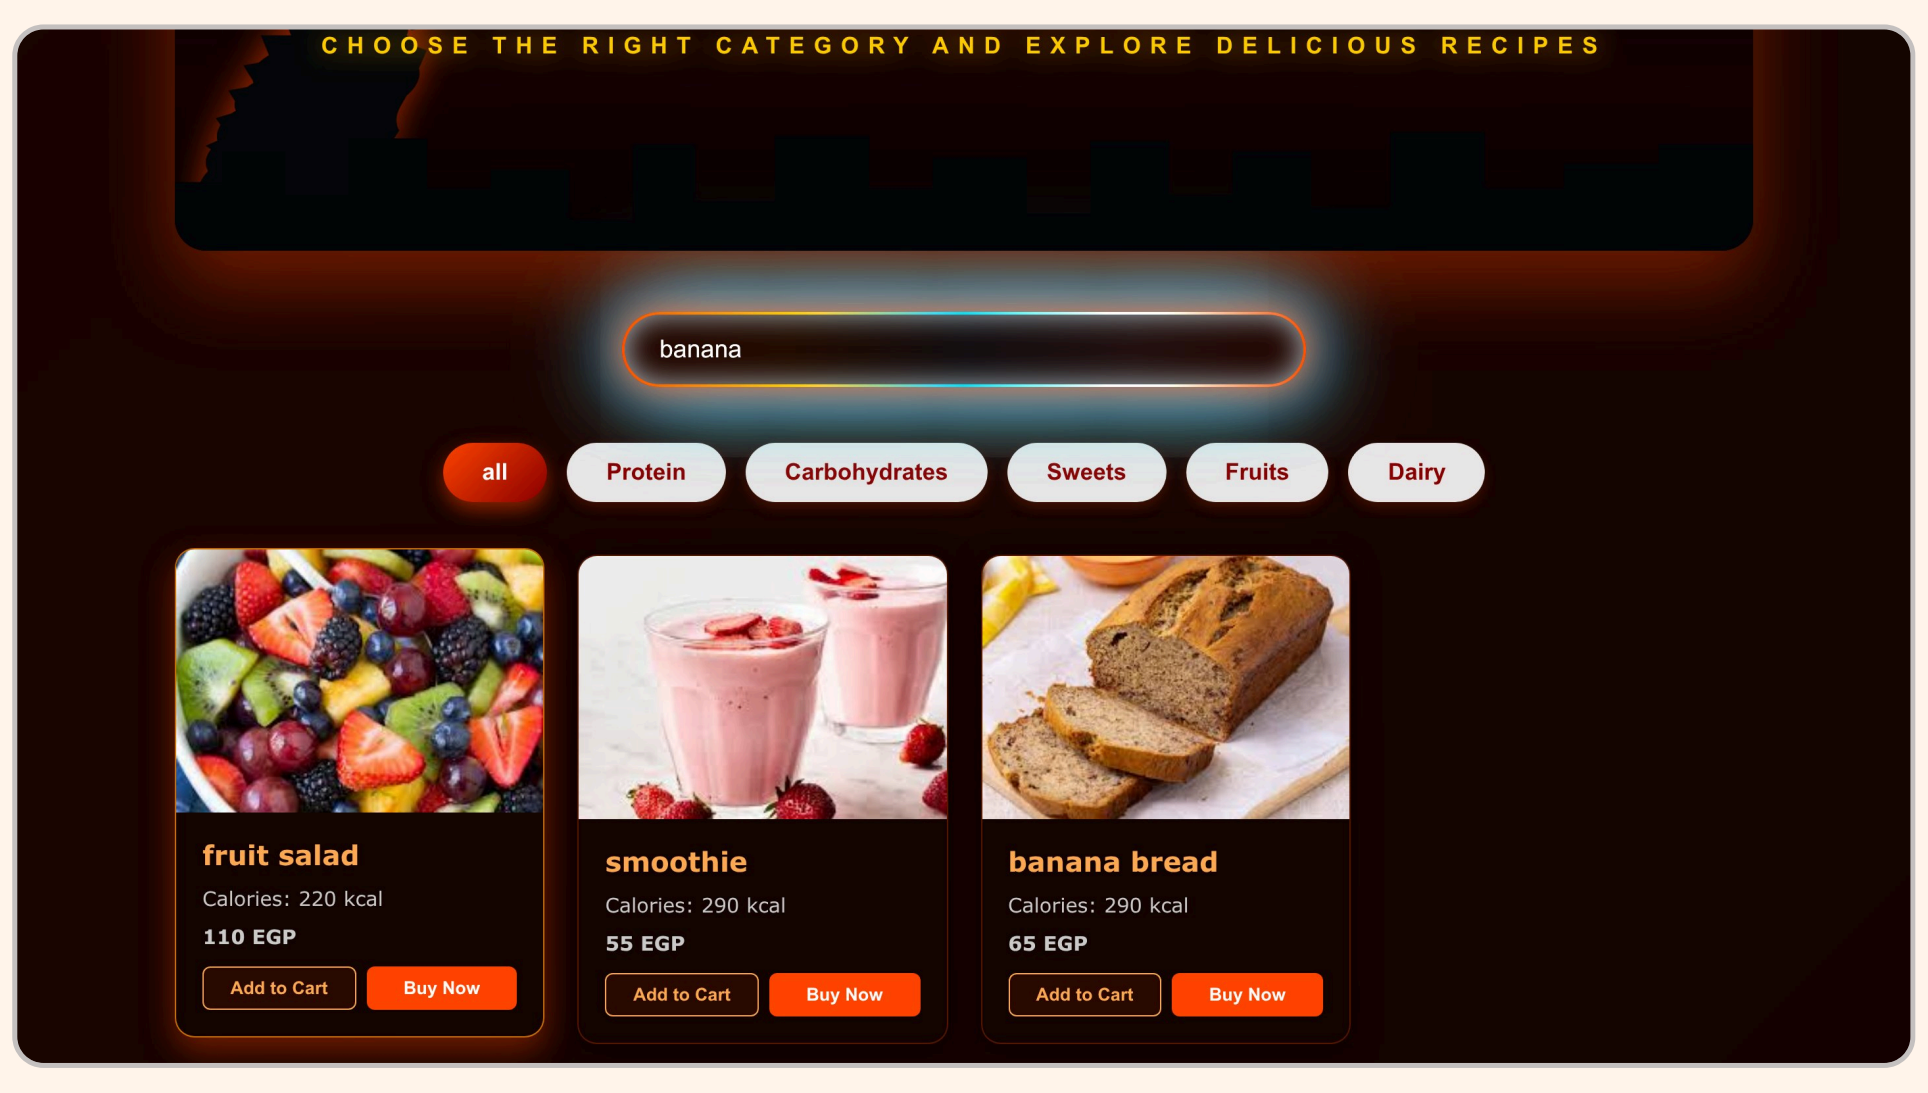
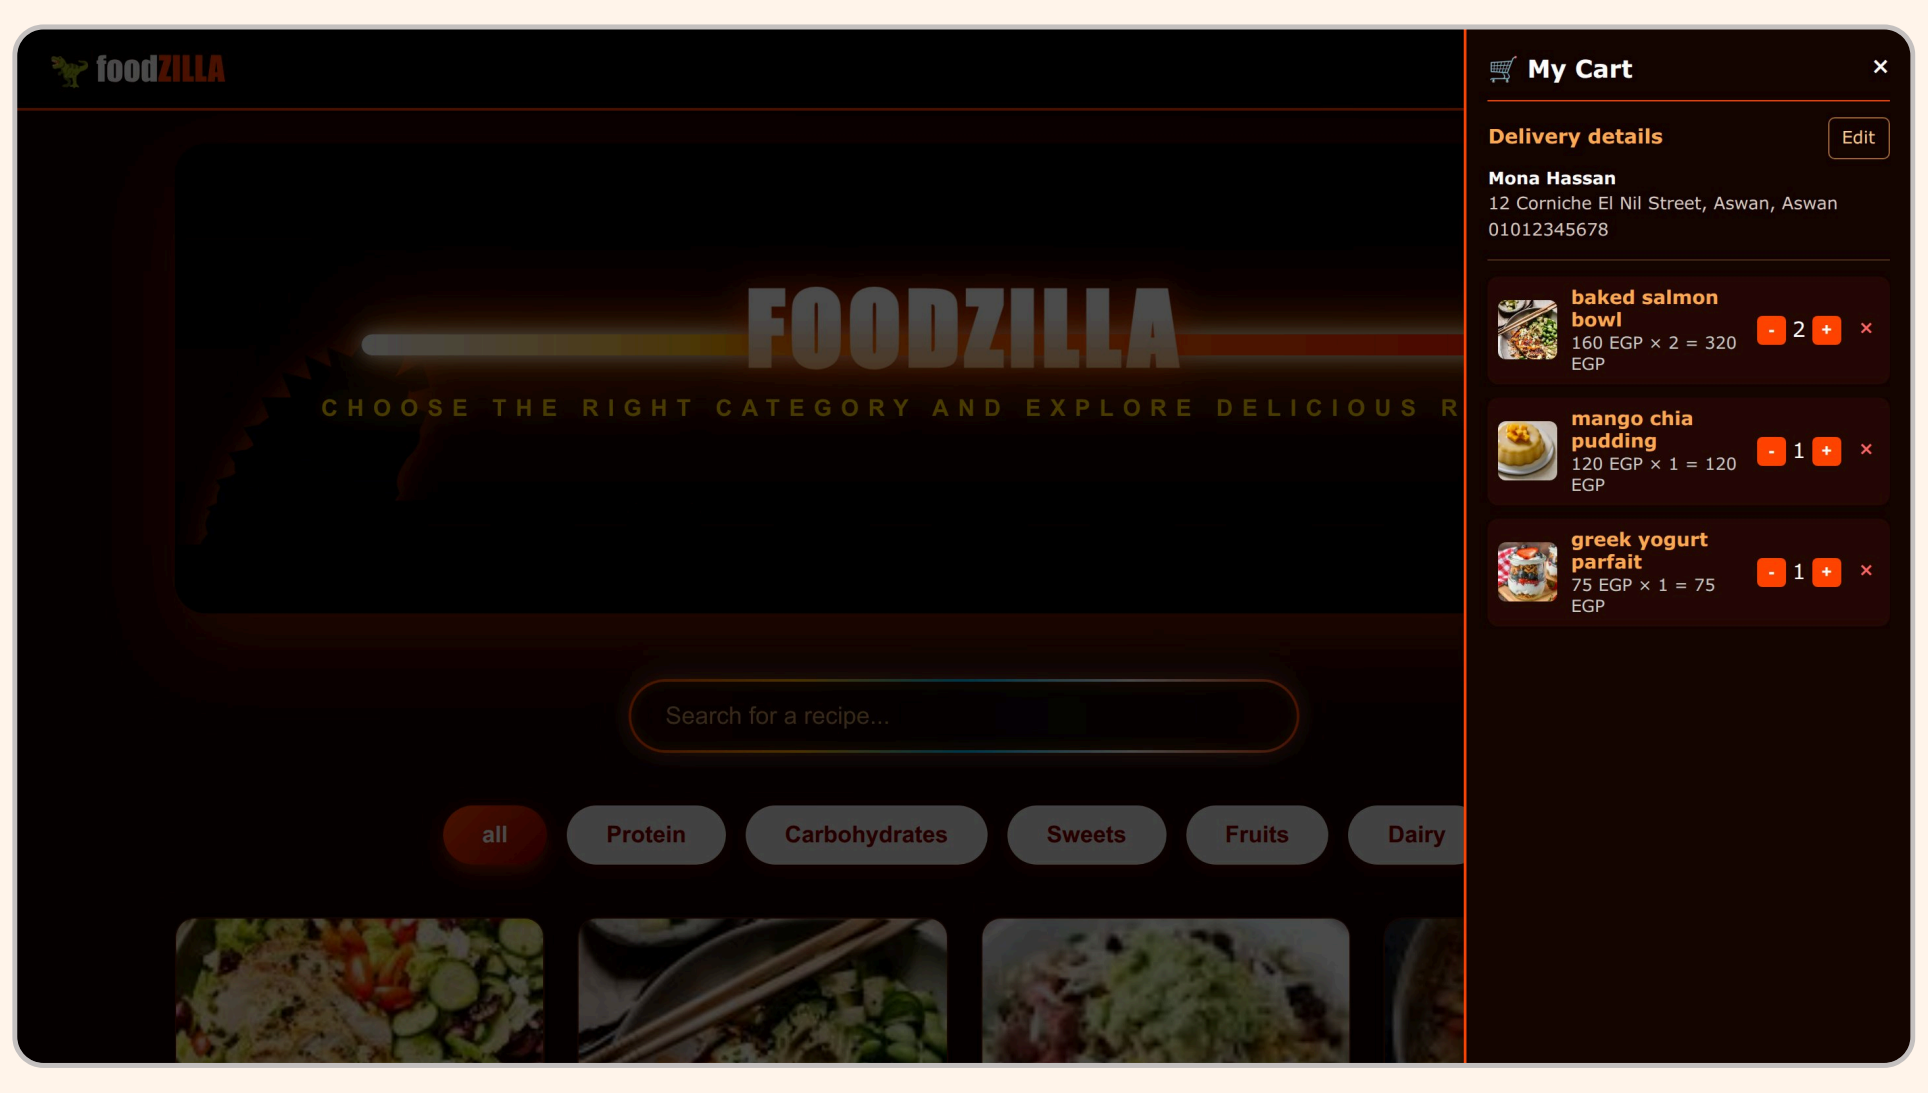
- **Search by name or ingredient**
  Type “banana” and the smoothie and fruit salad show up too.
- **A video for every recipe**
  31 YouTube cooking videos, played inside the recipe popup.
- **Ingredients, steps, calories**
  163 ingredients and 158 steps. Meals run from 170 to 720 kcal.
- **A cart that adds up**
  − / + / × for each meal. Subtotal plus a 50 EGP delivery fee.
- **Delivery details remembered**
  Saved in the browser after Sign in, and editable inside the cart.



Recipe popup: video, ingredients, steps.



Search “banana”: 3 recipes match.



My Cart: 515 + 50 delivery = 565 EGP.
