HEALTHY RECIPES · ASWAN 2026

foodZILLA

The beast of healthy recipes.

Pick a nutrition group, watch the recipe video, check the calories, and put the meal in your cart, all on one fiery page.

Healthy food has a boring name.

01

It sounds boring

Many young people picture plain boiled vegetables when they hear “healthy”, so they pick fast food instead.

02

Recipes are scattered

The steps are on one site, the video on another, and the calories nowhere. Too much work for one meal.

03

Cooking takes time

Even with a good recipe, a busy student often has no time to shop and cook it.

WHO IT'S FOR لمن هذا التطبيق

01

Teens

Food that looks as exciting as the fast food they already love, in a monster-movie style.

A Protein group, and the calories of every meal before they choose it.

WHY THE NAME سر الاسم

foodZILLA

Food + Godzilla. Godzilla is the giant movie monster who breathes an atomic fire beam. foodZILLA gives healthy food that same energy: his silhouette rises over a city skyline in the header, the beam shoots across the title, and the screen flashes like lightning.

The message: healthy food can be a beast, not a bore.

Thank you.
