MANY·HOUSES

Every city. One search.

Search homes from Alexandria to Aswan, save the ones you love, and read the contract before you meet anyone.

01 · WHY Cairo gets the portals. Everyone else gets Facebook. القاهرة لها المنصات، والباقي له فيسبوك

THE PROBLEM المشكلة

Scattered, Cairo-first, hard to trust

- **Scattered:** brokers, Facebook groups and 5+ portals.
- **Cairo-first:** about 157k of Dubizzle's 200k+ property ads are in Cairo [37].
- **Hard to trust:** hidden prices, and fake and duplicate listings. Even the government built a platform to fight them [24].

OUR SOLUTION الحل

Every city in one simple search

- **One search** by name, city or type, across 10 cities.
- **Price, rooms, bathrooms and area** on every card, plus a map pin.
- **A shortlist and a contract draft** before you meet a broker.

02 · WHO A country on the move. بلد يتحرك

108M	people in Egypt (CAPMAS, 2025) [1]
936,739	marriage contracts in 2024, each a possible new home [3]
98.2M	internet users, 82.7% of people [5]
$36.5B	sent home by Egyptians abroad, FY2024/25 [20]

OUR FIRST CUSTOMERS Newly married couples outside Cairo, with local brokers and owners as our partners.

OUR SPACE

Simple, and every city

The big portals compete for Cairo compounds and agents. manyhouses starts simple, in the cities they leave out.

WHY THE DOTS SIT THERE

- Dubizzle: about 157k of its 200k+ property ads are in Cairo [37].
- Property Finder's featured projects cost EGP 12.4M–73.5M [32].
- Nawy lists compounds from about 150 developers [25].
- The government platform starts with 3,000+ units in New Alamein [23].

Checked on 17 Oct 2026: Dubizzle showed **6** property ads in Aswan and Aqarmap **11** for sale, against about **157k** on Dubizzle in Cairo [37], [57].

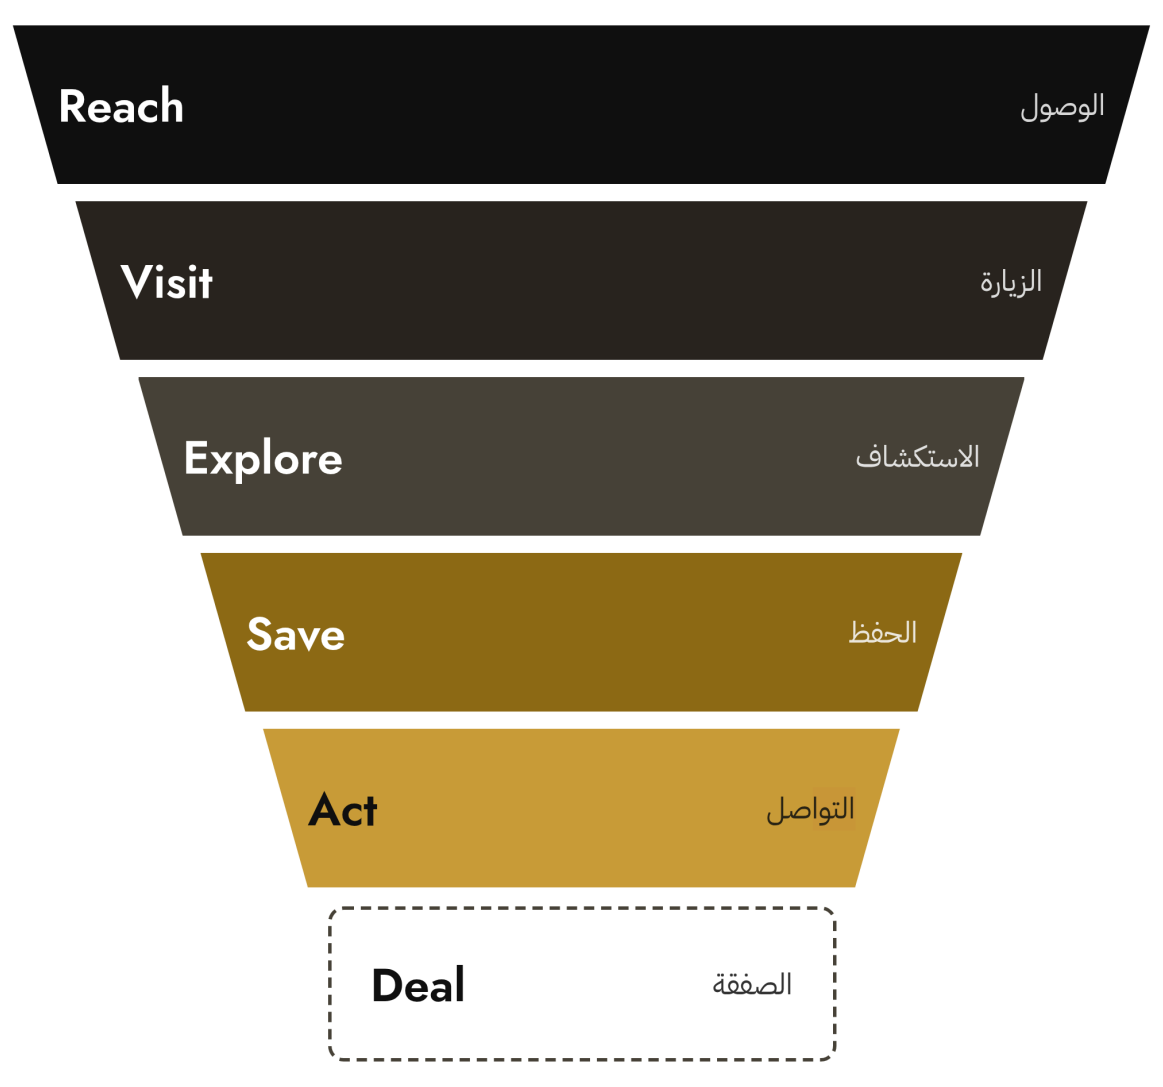
WHAT WE COUNT

The funnel قمع التسويق

WHAT WE COUNT AT EACH STEP



Reach	People who see a post or a QR code. `Facebook / Instagram insights`
Visit	People who open the app. `link clicks · QR scans`
Explore	Search, then open a property. `home.py → details.py`
Save	Tap the heart. `favorites`
Act	Download a contract draft or send a message. `contract.py · contact_us.py`
Deal	A visit or deal with a partner broker. `next: not built`

HONEST GAP

The app can't count yet

The steps from Explore to Act happen inside the app, which has no counter today. Social insights and QR scans can be counted from day one. An in-app counter is on the roadmap.

FIRST-MONTH TARGETS

Reach **5,000** · Visit **300** · Explore **150** · Save **60** · Act **20** · founding partners **5**. Only Reach, Visit and partners can be counted today.

Each step keeps only some people from the step above. That is why the bars get narrower. The biggest drop shows where to improve first.
