NEO CHALLENGE

ONE APP, THREE DAILY HABITS.

Train your body, grow your languages and sharpen your mind: pick a challenge, do one short activity, and come back tomorrow.

01 · WHY Three habits, three adult apps. لماذا؟

THE PROBLEM المشكلة

Too many apps, made for adults

Teenagers spread their effort across a fitness tracker, a language app and a quiz app. Most are built for adults, full of ads or paywalls, and none helps a young person keep a small daily habit going.

OUR SOLUTION الحل

One free place for all three

NEO Challenge puts sports challenges, language activities and a general knowledge quiz in one free web app for students aged 12–18. Join a challenge, tick off short activities, and watch the progress bar fill.

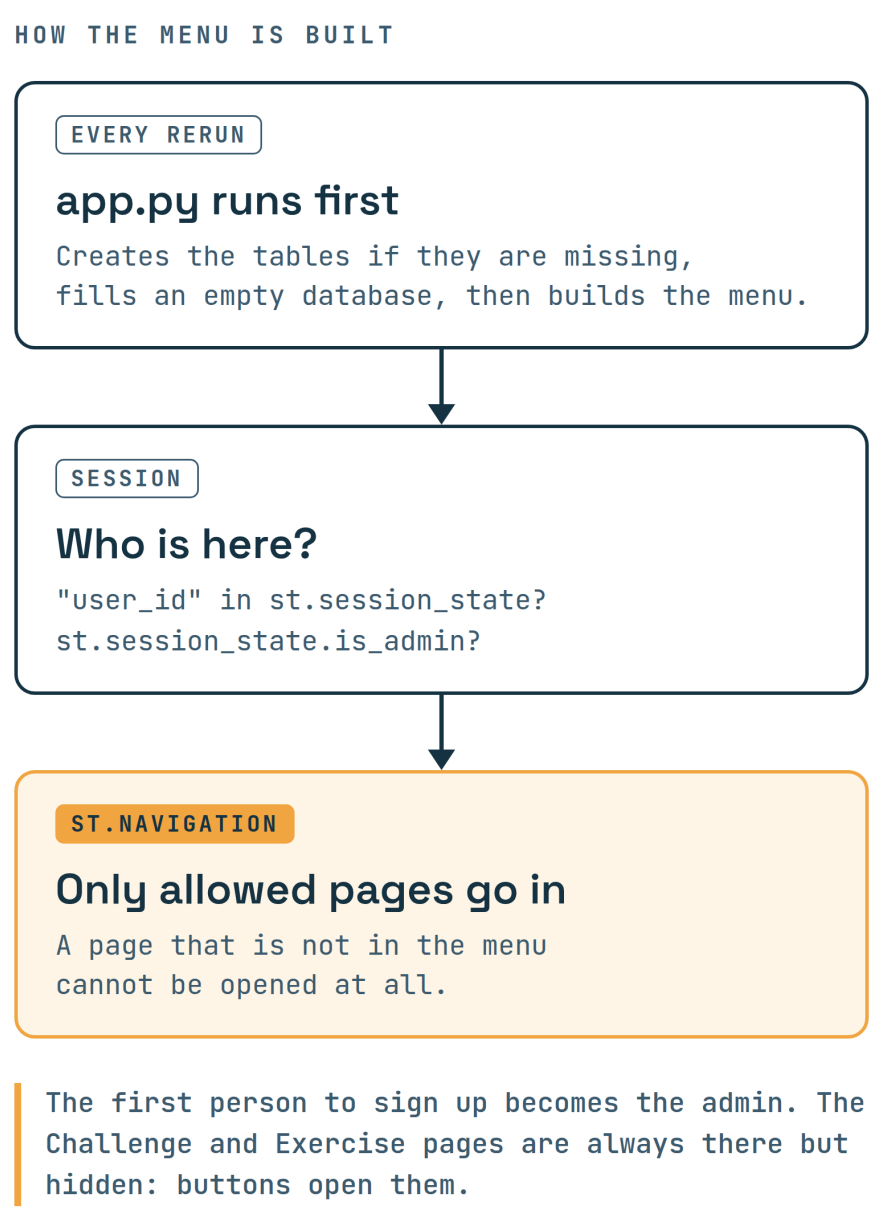
HOW THE MENU IS BUILT



EVERY RERUN — **app.py runs first** — Creates the tables if they are missing, fills an empty database, then builds the menu.

SESSION — **Who is here?**

```
"user_id" in st.session_state?
st.session_state.is_admin?
```

ST.NAVIGATION — **Only allowed pages go in** — A page that is not in the menu cannot be opened at all.

The first person to sign up becomes the admin. The Challenge and Exercise pages are always there but hidden: buttons open them.
